Terry,

Thank you! It has been a pleasure to also work with you and Todd on this order. Our COSTAR contract under IT hardware is 003-316, ALSO PA Vender number 393501 if that is also needed.

I will try my best to give the city a week in advance notice before delivery, hopefully that will be sufficient enough. Thank you again!

Best regards,

Aaron Nigro

Good morning Aaron – thanks for the additional information. Even though we did bid this project I would feel more comfortable with the Costars contract #. We should not have a problem paying the balance at time of delivery. Please let me know when the product arrives, before it is delivered so I can begin the drawdown process. It's been a pleasure working with you on this project!

Thank you,

Terry Specht

Subject: Re: deposit

Terry,

Thank you for the PO, and the initial check for the city's purchase! The equipment has been ordered and was given a 2-3 week turn around on most everything we will provide for you. (two of the items will be coming from Germany, and one item from the UK)

To make the process more simple, we will store the equipment at our facility and deliver all of it together at once to finalize the transaction. Our finance department has requested the final payment to be due at time of delivery in order to prevent unnecessary interest charges on our accounts, is there any issue with this?

ALSO, I apologize for not mentioning this at the beginning of the transaction, if the City needs to obtain a contract for the sale Genesis Security Integrations is an approved vender of the COSTARS program and would not have an issue obtaining a contract should the need arise. (Some city's/town's are fine with only the bid process and others feel more comfortable using COSTARS.)

Please let me know if you need anything else, I don't foresee any delays in the

11/30/2012

order... however if there are and you need for us to submit an invoice earlier because of time constraints to use the funding for the equipment, please advise and we will accommodate as much as we can.

Thank you again and best regards,

Aaron Nigro
